

## Directions to Brewster Uplands

Navigate to the Mobil Station at the intersection of Rt. 15 and Rt. 108 in Jeffersonville, VT. Put "Mobil Station, Jeffersonville, VT" into your GPS.

From the Mobil Station, there are two options.

**Option 1:** This is our preferred route because we feel it is safest and easiest on our horses and our truck.

From the Mobil Station in Jeffersonville take Rt. 108 south (Church St.) for 0.1 mile, then bear right on Rt. 108 (Mill St.). Go 3 miles and turn left on Edwards Rd. There is a bridge here

(24,000 pound weight limit) that looks narrow but it's easily wide enough for at least a 4-horse trailer.

From this turn, go 0.1 miles and bear left on Clif Reynolds Rd. Go 1.7 miles and turn left on Canyon Rd. Go 0.3 miles and turn left on West Farm Rd. Go 0.4 miles and park in the far corner of the field on the right, across from the working farm.

**Option 2:** This route is slightly shorter and is more on paved roads, but includes a very steep hill (uphill on the way in) so only do this if you have a powerful truck. We never leave this way because we don't want to subject our horses to a steep downhill.

From the Mobil Station in Jeffersonville take Rt. 15 east. After 0.3 miles you come to a rotary; take the 2nd exit to stay on Rt. 15. Go 0.7 miles and turn right on Junction Hill Rd. Go 1.2 miles and turn right on Canyon Rd. Go 0.3 miles and turn left on West Farm Rd. Go 0.4 miles and park in the far corner of the field on the right, across from the working farm.

To find the beginning of the trail from the parking area, ride along the treeline in this field heading north (to your right if facing the trees). You will see a trail going into the woods.
